PEDIATRIC PRIMARY CARE CASE STUDIES, 1st; Catherine Burns, PhD, RN

## Optimizing the R<sub>2</sub> Digital Library

- Search and browse an eBook using the toolbar above the reading pane
- Click on any hyperlinked term to launch a new search of your library's eBook collection
- Print, email and save content using the integrated tools
- Search the R<sub>2</sub> Digital Library's image collection using the image filter
- Enhance discoverability with integrated search elsewhere tools
- Use the My R<sub>2</sub> area to save searches, search results, images, courselinks and more

The figure consists of five sequential screenshots of the R2 Digital Library interface. The first screenshot shows the top navigation bar with 'Browse & Search Contents', 'Topics', and 'Tools' menus, and a search bar. The second screenshot shows the '8.9 WHEEZING' section with hyperlinks for 'primary care physicians', 'asthma', and 'pulmonary disease', with arrows pointing to them. The third screenshot shows the same section with a toolbar containing 'Print page', 'Email this page', 'Export Citation', 'Save a Bookmark', 'Save this Reference', and 'Save as Courselet'. The fourth screenshot shows search results for 'WHEEZING' with filters for 'Indexed Terms (58)', 'Full Text (2,481)', 'Character Titles (26)', 'Section Titles (17)', and 'Images (60)', with an arrow pointing to the 'Images (60)' filter. The fifth screenshot shows the 'My R2' area with 'Bookmarks', 'Course Links', 'Images', and 'References' tabs, and a 'Saved Searches' section.
